

Word of Mouth

What Makes Word of Mouth so unique!

- 10 years of experience doing weddings in Southern California.
- We know how to entertain (as opposed to just playing the songs well). This means we involve your guests by getting them to sing along or even join us on stage without going overboard.
- We're an extremely versatile variety band that can play instrumental jazz for Cocktails, Sinatra and 40's style vocal jazz for Dinner, and your favorite dance songs from our extensive Song List for Dancing. We can also play during or provide a string quartet for your ceremony.
- We emcee your entire event and work with you to put together a detailed Time Line for your reception (few other bands, if any, provide this level of service yet it makes a HUGE difference on the night of the event!)
- We're completely self-contained meaning we provide our own professional sound equipment and stage lighting.
- We're a full 7-piece band and, at the reasonable rates we charge, we doubt you'll find another band of our versatility, quality and size.
- Our commitment to you - We'll be the best vendor you hire... very professional and very accommodating.

“You will not find a better band value! Outstanding musicianship, coordination and a tasteful emcee. Always appropriate and personable. They are super accommodating and have a large repertoire. Your guests will dance all night.”

Tad Clark - AMS Entertainment
